HAZARD WARNING		RISK PHRASES					PROTECTIVE CLOTHING	
Irritating to s Refrigerate.		kin, eyes, and the respiratory system.						
Section I. C	Chemical Prod	uct and Cor	npany Ide	ntificatio	n			
Chemical Name	N-(4-Me	N-(4-Methoxybenzylidene)-4-butylaniline						
Catalog Number	M0275	M0275			Supplier	TCI America 9211 N. Harborgate St. Portland OR 1-800-423-8616		
Synonym		Benzeneamine, 4-butyl-N-((4- methoxyphenyl)methylene)- (9CI)			-			
Chemical Formula	C ₁₈ H ₂₁ NO	C ₁₈ H ₂₁ NO						
CAS Number	26227-73-6	26227-73-6			In case of Emergency Call	(703) 527-	® 9300 (U.S.) 3887 (International)	
Section II. (Composition a	nd Informat	tion on Ing	gredients	;

Section VI.	Accidental Release Measures	S					
Spill Cleanup Instructions	Irritating Material. If the product is in its solid form: Use a shovel to put the material into a convenient waste disposal container. If the product is in its liquid form: Absorb with an inert material and put the spilled material in an appropriate waste disposal Consult federal, state, and/or local authorities for assistance on disposal.						
Section VII.	Handling and Storage						
Handling and Storage Information	container and store in a dry, cool place.	IRRITANT. REFRIGERATE. Keep away from heat. Mechanical exhaust required. When not in use, tightly seal the container and store in a dry, cool place. Avoid excessive heat and light. Do not breathe dust. Always store away from incompatible compounds such as oxidizing agents.					
Section VIII.	Exposure Controls/Personal	Protection					
Engineering Controls	recommended exposure limits. If user	Use process enclosures, local exhaust ventilation, or other engineering controls to keep airborne levels below recommended exposure limits. If user operations generate dust, fume or mist, use ventilation to keep exposure to airborne contaminants below the exposure limit.					
Personal Protection		Splash goggles. Lab coat. Dust respirator. Boots. Gloves. Suggested protective clothing might not be suffici consult a specialist BEFORE handling this product. Be sure to use a MSHA/NIOSH approved respirator or equivalent.					
Exposure Limits	Not available.						
Section IX.	Physical and Chemical Prope	erties					
Physical state @ 20°C	Solid.	Solubility	Soluble in methanol.				
Specific Gravity	1.03 (water=1)						
Molecular Weight	267.37	Partition Coefficient	Not available.				
Boiling Point	176℃ (348.8°F)	Vapor Pressure	Not applicable.				
Melting Point	Not available.	Vapor Density	Not available.				
Refractive Index	1.5496	Volatility	Not available.				
Critical Temperature	Not available.	Odor	Not available.				
Viscosity	Not available.	Taste	Not available.				
Section X.	Stability and Reactivity Data						
Stability	This material is stable if stored under prop	er conditions. (See Section VII f	or instructions)				
Conditions of Instability	Avoid excessive heat and light.						
Incompatibilities	Highly reactive with oxidizing agents.						
Section XI.	Toxicological Information						
RTECS Number	BW9550000						
Routes of Exposure	Eye Contact. Ingestion. Inhalation.						
Toxicity Data	Not available.						
Chronic Toxic Effects	CARCINOGENIC EFFECTS : Not availabl MUTAGENIC EFFECTS : Not available. TERATOGENIC EFFECTS : Not available DEVELOPMENTAL TOXICITY: Not availabl Repeated or prolonged exposure to this co	le.	ate existing medical conditions.				
Acute Toxic Effects	Irritating to eyes and skin on contact. Inhalation causes irritation of the lungs and respiratory system. Inflammation of th eye is characterized by redness, watering, and itching. Skin inflammation is characterized by itching, scaling, reddening or, occasionally, blistering. Follow safe industrial hygiene practices and always wear proper protective equipment when handling this compound.						

M0275 N-(4-Methoxybenzylidene)-4-butylaniline Page 3 Section XII. **Ecological Information** Not available Ecotoxicity Not available Environmental Fate Section XIII. **Disposal Considerations** Recycle to process, if possible. Consult your local regional authorities. You may be able to dissolve or mix material with a Waste Disposal combustible solvent and burn in a chemical incinerator equipped with an afterburner and scrubber system. Observe all federal, state and local regulations when disposing of the substance. Section XIV. Transport Information DOT Classification Not a DOT controlled material (United States). PIN Number Not applicable. Proper Shipping Name Not applicable. Packing Group (PG) Not applicable. DOT Pictograms

Section XV. Other Regulatory Information and Pictograms This compound is **ON** the EPA Toxic Substances Control Act (TSCA) inventory list. TSCA Chemical Inventory (EPA) WHMIS Classification On NDSL. (Canada) EINECS Number (EEC) 247-527-4 EEC Risk Statements R36/37/38- Irritating to eyes, respiratory system and skin. ENCS No. (3)-1151, (3)-1212 Japanese Regulatory Data Section XVI. **Other Information**

Version 1.0 Validated on 4/20/2007. Printed 4/20/2007.

Notice to Reader

TCI laboratory chemicals are for research purposes only and are NOT intended for use as drugs, food additives, households, or pesticides. The information herein is believed to be correct, but does not claim to be all inclusive and should be used only as a guide. Neither the above named supplier nor any of its subsidiaries assumes any liability whatsoever for the accuracy or completeness of the information contained herein. Final determination of suitability of any material is the sole responsibility of the user. All chemical reagents must be handled with the recognition that their chemical, physiological, toxicological, and hazardous properties have not been fully investigated or determined. All chemical reagents should be handled only by individuals who are familiar with their potential hazards and who have been fully trained in proper safety, laboratory, and chemical handling procedures. Although certain hazards are described herein, we can not guarantee that these are the only hazards which exist. Our MSDS sheets are based only on data available at the time of shipping and are subject to change without notice as new information is obtained. Avoid long storage periods since the product is subject to user to gradation with age and may become more dangerous or hazardous. It is the responsibility of the user to request updated MSDS sheets for products that are stored for extended periods. Disposal of unused product must be undertaken by qualified personnel who are knowledgeable in all applicable regulations and follow all pertinent safety precautions including the use of appropriate protective equipment (e.g. protective clothing, breathing equipment, facial mask, fume hood). For proper handling and disposal, always comply with federal, state, and local regulations.
